NEW TECHNOLOGY
GSM JAMMING COUNTERMEASURES
The system intelligently detects GSM jamming and automatically sends an RF alert and switches to RF communication.

NEW TECHNOLOGY
NO EXTERNAL ANTENNAS
The system is more secure and easily hidden without exposed antennas.

TOW-AWAY ALERT
The system automatically geo-fences your vehicle when you switch off the ignition.

TAMPER ALERT
Be alerted when power supply to the system is cut.

HIJACK BUTTON
Activate tracking and generate an alert to CAPTOR's 24 hour Command Center with a press of a button.

EARLY WARNING
The system can be linked to your vehicle's alarm system.
Conditions Apply, Subject to Compatibility

CAPTOR RF GPS GSM

3 in 1 VEHICLE TRACKING & RECOVERY SYSTEM

The only system in Malaysia that combines the accuracy of GPS, the speed of GSM and the ability to 'home-in' using RF (Radio Frequency) tracking.

Immobilizers today are not enough and cannot protect you against tow-away, robbery and hijack.

CAPTOR's RF/GPS/GSM system is an advanced and comprehensive system that gives you the best chance at recovering your stolen car.

CAPTOR Gets it Back!
